

## HARBEC Verified as a Service-Disabled Veteran-Owned Small Business (SDVOSB)

August 18, 2016  
Ontario, NY

Ontario, NY, based HARBEC, Inc. ([www.harbec.com](http://www.harbec.com)) proudly announces that it has been verified as a Service-Disabled Veteran-Owned Small Business (SDVOSB).

On July 22, 2016 HARBEC received official notification from the U.S. Department of Veterans Affairs (VA), Center for Verification and Evaluation (CVE) that it had been verified as a SDVOSB and added to the Vendor Information Pages (VIP) and eligible to participate in Veterans First Contracting Program opportunities with the VA.

HARBEC's President and Founder, Bob Bechtold, states, *"We are honored to be verified and recognized by the VA as a Service-Disabled Veteran-Owned Small Business. We believe the SDVOSB designation will strengthen HARBEC's ability to be competitive with federal contracting opportunities as well as enhance existing and future business-to-business relationships."*

### *About HARBEC*

Founded by Bob Bechtold in 1977, HARBEC's mission is to provide tightly tolerated prototypes, tooling, machined components and quality injection molded parts in a sustainable manner with a social conscience. They provide superior customer service, satisfaction and timely delivery of custom engineered solutions. HARBEC proudly fosters an atmosphere of encouragement and respect for the health and prosperity of their customers, employees, and the global community.

HARBEC provides capabilities and solutions for the consumer product, sporting goods, defense/aerospace, transportation, medical, marine, and energy industries. HARBEC has capabilities in the use of innovative materials, problem-solving, and working with R&D and commercial organizations on unique prototypes or engineering and manufacturing groups on high volume production. HARBEC has capabilities for short (1-to-100 parts) or longer run (>1M parts) production.

HARBEC is certified as an ITAR, ISO9000-2008, ISO14001, and ISO50001/SEP Company, demonstrating its use of "eco-economic" decisions and policies designed to ensure that its activities are sustainable. HARBEC has developed and implemented a myriad of solutions to offset emissions, utilize waste and conserve resources. HARBEC reached its goal of "no carbon footprint" in 2013. Currently, the facility has 250kW and 850kW wind turbines and operates a combined heat and power plant which generates electricity and provides thermal energy to meet the heating and cooling requirements of the facility.
